**Q1: Address**

Name	Denise "Mitzi" Epstein
Legislative District	LD18
Political Party	Democrat
City/Town	Tempe
State/Province	AZ
Email Address	Mitzi@AZEps.net
Phone Number	480-961-9138

---

**Q2: Arizona depends on elected leaders to make smart policy decisions that will create the conditions for individuals, families, and businesses to succeed. During the Great Recession Arizona suffered a high rate of people losing their homes, job losses around the state, and huge drops in state revenue. The major ongoing statewide policy directions have been shrinking state government, cutting spending in public K-12 and higher education, eliminating safety net strategies for struggling families, and phasing in additional permanent tax cuts. What direction do you support going forward to promote economic health for families and the state? (Check all that apply)**

Invest in roads, water supply, and other infrastructure.

Strive for Arizona to build a strong and educated workforce with revenue sources and investments in education and family support.

Comments

Our schools are suffering. Teachers need a pay raise. If Prop 123 was the first 3 steps to restore funding for education, we still have to get to step 12. We need to change our priorities about the revenue we do have. A- We have a budget surplus. It should be used to invest in children because that helps all of us, not for new tax loopholes for the select few. B- Stop adding more loopholes that reduce revenue available for our responsibilities to public education, health, and safety. C- By improving the yield of Maricopa County investments, from zero to a very safe ROI, education revenue could be increased in the ballpark of \$100 million per year, according to Treasurer Candidate Joe Downs. With the will to improve revenue for public schools and children's well-being, we can find the resources.

2016 Candidate Questionnaire

**Q3: Arizona stands out among the states in skyrocketing growth in the number of children living away from their families in temporary foster care due to abuse or neglect. The consequences include huge expense to taxpayers, an overwhelmed and unsustainable child protective services system, a shortage of foster families with children left sleeping in offices and living in shelters, and life-changing trauma for thousands of children. Do you support more focus on strategies like parent mentoring, child care assistance, family counseling and monitoring, and substance abuse treatment to prevent family crisis and help more children stay safely with their families?**

Yes,

Comment

An ounce of prevention, .... can save a child's life.

**Q4: Business CEOs, parents, and teachers across the state are calling for increased investments in public education. The Arizona Joint Legislative Budget Committee (JLBC) data show a 25% drop in total state funding for K-12 education per student – a drop of \$1,200 per student from 2008 to 2016. According to the National Assessment of Educational Progress (NAEP), just over 1 in 3 eighth grade students in Arizona score proficient in math and fewer than 1 in 3 fourth grade students score proficient in reading. The new withdrawals from the State Land Trust approved by voters for ten years in Proposition 123 settle inflationary funding, but restore less than \$1 for every \$5 of what's been cut from the state budget for schools. Will you support increased investments in the state budget every year for: a) a workforce of qualified teachers with competitive compensation and quality professional development; b) classroom curriculum and supplies with updated textbooks and technology; and c) school building maintenance and repair to give students safe, clean, and functional places to learn.**

Yes,

Comments

Children are our future. Too many Arizona legislators have forgotten that. See my answer to question #1.

**Q5: Reading proficiency by third grade is the most important predictor of high school graduation and career success. In 2016, 6 in 10 Arizona third graders failed the AzMerit reading test. Reading success begins long before third grade. Many children start Kindergarten already behind their peers; poor children have heard 30 million fewer words in their young lives. The high cost of quality child care and preschool education put them out of reach for many hardworking parents (costs of up to \$8,000 per year or more). Often, the children who start out behind stay behind. Please indicate the strategies you would support to promote reading success: (Check all that apply)**

Educational programs to help parents read and sing with their young children and prepare them for kindergarten.

,

State funding to help working parents afford quality preschool and child care education.

,

Professional reading coaching for child care teachers and elementary school teachers.

,

An Early Literacy Grant Program for schools, child care, preschools and community programs to improve reading readiness.

,

Comments

Smart spending on child care scholarships and supports for child care providers can help working parents to keep their jobs, and advance in their careers. Helping families be more productive helps improve the economy for all of Arizona. Plus, children are our future. Let's teach our children well.

## 2016 Candidate Questionnaire

**Q6: Arizona has cut taxes every year (except one) for the past 26 years. Tax cuts passed just since 2009 will remove \$900 million from the state budget every year when they are phased in. Tax credits, like tax cuts, are permanent because they require a 2/3 vote of the legislature plus the signature of the governor to reverse or reduce. Tax credits have been growing far faster than state revenue, the state's economy, or state investments in public education without any evidence that they have created a single job. The amount taken out of state revenues for tax cuts and tax credits is not available to invest in public district and charter schools. What are your priorities for tax policy?(Check all that apply)**

Cap the growth in tax credits. ,

Take a time out from tax cuts to reinvest in public education.

,

Adopt tax policies that make the system more fair for low and middle income families.

,

Comments

We need an economy and tax structure that work for everybody, not just the select few. With current tax policies, Millennials are faced with lower wages, higher tax rates than their parents, and crushing student debt. Seniors may find that they end up paying a Higher tax rate in local and state taxes when they retire, than they did when they were working. Under Republicans' control, ordinary Arizonans have had their actual state and local tax rates increased, while special business interests have had loophole after loophole added. It's high time to stop the loopholes! Draw a line in the sand and demand no more loopholes that produce no jobs.
