The Affordable Care Act (ACA) has provided protections for 2.8 million Arizonans living with a pre-existing condition and has provisions that extend care to former foster youth, school-aged children, and hundreds of thousands for Arizonans. However, the constitutionality of the Affordable Care Act is under review by the Supreme Court. Do you support efforts to repeal the Affordable Care Act?

Yes

Comments on the Affordable Care Act

The ACA created insurance coverage requirements that resulted in millions losing health insurance coverage. I, for one, saw my health insurance plan cancelled and my health insurance costs more than double as a direct result of the ACA's draconian coverage requirements.

Medicaid is a major source of federal funds in Arizona, with every dollar of state investment drawing down $3.20 in federal funds. The Joint Legislative Budget Committee (JLBC) projects a major state budget shortfall in the next state fiscal year (FY2021). Would you support cuts to Medicaid provider rates, member eligibility, or covered benefits in order to make up for state budget shortfalls?

No

Comments on Medicaid

Cutting provider rates has resulted in doctors refusing to accept Medicaid and isn't the answer.

The Invest in Education Act is a ballot proposition that restores hundreds of millions of dollars annually in K-12 education funding to solve the teacher-shortage crisis, lower class sizes, hire aides and counselors, and expand career and technical education. It raises the state income tax rate for income above $250,000 for individuals and for income above $500,000 for households. Do you support the Invest in Education ballot proposition to raise new resources dedicated to public schools?

No

7
Comments on Invest in Education

I support increased teacher pay and I support initiatives at the legislature to specify that additional funding given to districts be spent on teacher pay alone. I support re-working state revenues already collected, not raising taxes.

The Arizona Education Progress Meter recognizes that children with access to quality, early learning opportunities are more prepared for kindergarten. As they go forward in school and in life, they are less likely to need special education or be held back a grade. They are more likely to graduate high school and go on to college. But many children start kindergarten already behind their peers. Only 21 percent of Arizona preschool-aged children today benefit from quality, early learning in child care and preschool compared to the progress meter goal of 45 percent by 2030. Will you support using state and federal child care funds to connect more young children with quality, early learning in preschool and child care to move Arizona toward the progress meter goal?

No response

In 2018, 13 percent of children in Arizona (204,363) were being raised by their grandparents or other relatives. In many instances, these relatives have stepped up to care for children who were being abused and neglected, keeping them safe and out of the foster care system. Nationally, informal kinship caregivers keep millions of children out of the overburdened child welfare system and save taxpayers more than $4 billion each year. Even prior to the COVID-19 crisis, these families faced barriers to securing adequate food, clothing, shelter, and medical care. Before the Great Recession, kinship caregivers were able to access “child-only” benefits through the Temporary Assistance for Needy Families program (TANF), also known as cash assistance. These benefits helped these families meet the critical basic needs of the relative children in their care. Do you support restoring access to “child-only” TANF benefits for children who are being raised by kin?

No response

The events over the last few weeks have brought widespread focus on the systemic racism that is deeply embedded in our society. If elected, would you hold your colleagues and other elected officials accountable to specific criminal justice and police reforms for systemic change.

Yes

A free space for your comments

I volunteer in a prison weekly with my church. Criminal justice reform is needed, especially giving sentencing power back to judges. Also, police brutality should be addressed by an independent investigatory commission appointed by the governor to probe police shootings.
