**Q5**

Children who have year-round health insurance do better in school, are more likely to graduate from high school, are healthier, and earn more in adulthood. There are approximately 161,000 uninsured children in Arizona. If elected, how would you help ensure that all children and families have access to the health care that they need?

I will make sure to support all bills that protect children's health

---

**Q6**

We know that a child's earliest years, birth to age 8, are the most important for the development of their brains. High-quality early childhood experiences can enhance that development. How can the state take a role in helping parents give their children the best start in life?

Protect free, excellent Pre K education. I may consider this be available FREE to exclude the super wealthy in AZ

---

**Q7**

Many families in Arizona are struggling. Housing is becoming increasingly unaffordable, nearly one in four children live in poverty, and resources that used to be available to help families are no longer there. Research shows that when access to safety net resources are low, foster care populations are high. What is your plan to help children and families get the resources and services they need to keep them out of the child welfare system?

This is a complicated issue. I would vote for any assistance package that helps avoid homelessness for families and kids.

---

**Q8**

Arizona has been among the bottom states in per pupil K-12 funding for the past decade which has resulted in severe challenges including teacher shortages, crowded classrooms, and insufficient student support services. How will you ensure that students in every neighborhood have access to quality, well-funded education in Arizona

Expand investment in public education, stop vouchers and charter schools expansion. Provide competitive teachers' salaries, reduce class sizes and modernize infrastructure

---

**Q9**

Arizona's elected leaders have created a tax code that is upside down and regressive— meaning that those with low incomes pay a much higher share of their income in taxes compared to Arizona's highest income earners. If elected, what will you do to make sure that wealthy and corporations pay their share of taxes?

If elected I would of course work tirelessly to support bills that reverse this mentality. It is a sick concept to profit of the backs of the poor, but we see this permeate our lives more and more. That is why we have to change the balance in the AZ legislature. Vote for leaders dedicated to their constituents not the special interest groups and greedy corporations.

---

**Q10**

As the cost of living is rising faster than wages in Arizona, many households are struggling to afford basic needs. If elected, what are three ways that you will improve economic well-being for Arizonans?

1. support a living wage, a minimum \$15/hr
  2. maybe it is time to consider the NY concept that used to exist- like rent control
  3. Support programs like SNAP and the rest of social programs that offer support to families that live in poverty
-
